

## **Mount Grace School - Strategic Vision**

### **Mission**

At **Mount Grace** School we have a Mission:

“to be the Community School of Excellence for the Citizens of tomorrow”

This underpins all we do.

### **Vision**

We are also clear about our vision. Within 5 years we aim to:

“develop Mount Grace School as a community school and as a local centre of excellence for vocational education with a national reputation”

We intend Mount Grace to be the focus for learning opportunities within Potters Bar and the surrounding towns and villages. We are the only fully comprehensive secondary school in the area and we will make sure that our first class facilities are used for the benefit of local people but we also intend to attract users from further afield drawn by our reputation for raising achievement.

This vision will not be realised overnight and our priority over the next five years is to make sure that Mount Grace becomes firmly established as a first class educational establishment meeting the many different needs of its students. We will continue to develop services for other sections of the local community.
