6. Complete the set tasks above.

**Resources and Websites:**

- Encyclopaedias.
- <http://www.bbc.co.uk/schools/ks3bitesize/science/biology/>

**Department guidance for parents:**

You can help the student doing the homework by:

- Taking them to the local library for research, or showing them how to get to the library.

## General guidance for parents

You can help by:

- Ensuring at least 3 hours are spent researching, developing, drafting, reviewing and producing homework to the best standard possible.
- Making sure work is handed in by the deadline.
- Noting at the end of the homework any problems experienced by the student.
- Checking there is no plagiarism, ie. downloading/copying from the internet or books.

*Students should read the material, make bullet points, write rough notes in their own words, draft and then develop these notes in their own words into their final piece. Plagiarism leads to coursework being disqualified at GCSE/A level. Plagiarised work will not be accepted by teachers.*

**Please do not:**

- do any part of the work for your child
- give extensive guidance; the student must be able to understand the task for themselves and teachers understand what students can/cannot do.
