GENERAL GUIDANCE FOR PARENTS

The assignments cover the topics that are planned to be taught and so may be attempted as each topic is covered in class. The teacher should remind your child when each task may be attempted.

Resources and Websites

Your class exercise book, the on-line lessons accompanying each homework assignment on the www.mymaths.co.uk website.

Online Tasks – Resources and Websites

If your child finds the online task difficult to do and/or you do not understand it yourself, then simply click on the **ON-LINE LESSON** for this topic and work through the exercises with your child first.

Written Tasks – Resources and Websites

Your child can use their class exercise book, the on-line lessons accompanying each homework assignment on the www.mymaths.co.uk website.

Investigation Tasks

You can help your child by:

- a) ensuring at least 3 hours are spent researching, developing, drafting, reviewing and producing homework to the best standard possible.
- b) making sure work is handed in by the deadline.
- c) noting at the end of the homework any problems experienced by the student.
- d) checking there is no plagiarism, ie. downloading/copying from the internet or books.

Students should read the material, make bullet points, write rough notes in their own words, draft and then develop these notes in their own words into their final piece. Plagiarism leads to coursework being disqualified at GCSE/A level. Plagiarised work will not be accepted by teachers.

Please DO NOT help by:

- a) doing any part of the work for your child
- b) giving extensive guidance; the student must be able to understand the task for themselves and teachers understand what students can/cannot do.
