Dear Parents/Carers,

RE: ALL YEAR 7 STUDENTS

I am writing to request your help and co-operation with regard to a serious Health & Safety issue which we are encountering at school.

Over the years there has been a steady increase in the number of students who suffer from allergies and asthma. This year we have a particular issue which has prompted me to write this letter.

Please would you ensure that your son/daughter does not bring into school any aerosol cans or perfume atomisers or such like. If it is necessary for deodorant to be brought in to school, could you please ensure that they use the 'roll-on' variety. At no time should ANY spray product be used.

Your assistance is appreciated in this matter.

Yours sincerely

**MS S MACDONALD
HEAD OF LEARNING YEAR 7**
